

# Afterschool Programs

Time	Monday	Tuesday	Wednesday	Thursday	Friday
4:30 - 5:30	Beginner Japanese Teacher Yu	Drama Teacher George	ESL Teacher Jena	Music Teacher Lawrence	ESL Teacher Jena
	Shadow Theatre Teacher Naoki			Japanese Math Teacher Yu	

Teacher	Name of Class	Description
Yu	Beginner Japanese	<p>日本の遊びを通じて日本語のスキルを身につけましょう。 かるたやしりとりなど、日本語を使った遊びはたくさんあります。 遊ぶことはとても頭を使うため、遊びながら学ぶことは椅子に座って学ぶことにも劣らない素晴らしい教材です。楽しく日本語と一緒に学びましょう。</p> <p>Let's learn Japanese skills through Japanese games. There are many games that use Japanese, such as karuta and shiritori. Playing is a great way to use your brain, and learning while playing is a great teaching tool, no less than learning while sitting in a chair. Let's have fun learning Japanese together.</p>
Naoki	Shadow Theatre	Practice how we can communicate and tell a story without words. We will learn how to make shadow puppets with using our hands, body, paper and other materials. This class provides the following fields of study ( Drama, Craft)
George	Drama	Let's learn and practice how to portray different characters
Jena	ESL	<p>Believe you can and you will!</p> <p>This class emphasizes Reading, writing, speaking, and grasp of English grammar. It helps the young learners be more comfortable using accurate English sentences that make communication easier. Join us to level up your skills that will surely benefit your future.</p>
Lawrence	Music	<p>Music exists all around us. The jingle of your favorite store, the chime of your local train station, and so much more. The soundtrack of our life makes it more vibrant and colorful. In music class, we will use our ears, voices, and bodies to bring that color into the classroom. Students will learn the basic musical" roots of tone and rhythm. As they grow, we will learn to sing songs as a group using simple harmonies and rhythms.</p>
Yu	Japanese Math	<p>机で問題を解くことだけが算数ではありません！ 皆さんの身の回りにある様々なことに算数は関係しています。 このクラスでは、算数を全身で感じながら理解を深め、 子どもたちの視野や価値観を広くすることを目標とします。</p> <p>Math isn't just about solving problems at a desk! Math is related to many things around us. In this class, students will deepen their understanding of math by feeling it with their whole body. The goal of this class is to broaden the children's perspective and sense of values.</p>
