**Description:**

|                 |   |
|-----------------|---|
| <b>Computer</b> | <p>In a world increasingly dominated by technology, basic computer literacy is an important professional and personal skill for young children to develop, even at the earliest levels of education. We at Marie International School have 3 levels for our computer program—Beginner, Intermediate and Advanced.</p> <p><b>Level 1:</b><br/>For Beginner class, we will be learning about the basic parts and uses of computer with fun activities.</p> <p><b>Level 2:</b><br/>For Intermediate class, we will be exploring the most available computer software—MS Word. Learning the basics of MS Word benefits students to create new innovative methods of learning.</p> <p><b>Level 3:</b><br/>For Advanced class, we will be introducing MS Powerpoint. Students will explore and be able to create, use and edit slides. It aims students gain valuable tech skills.</p> <p>Join me as we develop essential skills with fun and engaging computer lessons!</p>  |
| <b>Japanese</b> | <p>Since we live in Japan, let's enjoy learning Japanese. In our class we will be speaking Japanese basic words, writing letters of Hiragana and will learn the Japanese culture. We at Marie International School have 3 levels for our Japanese classes.</p> <p><b>Level 1:</b><br/>Beginners class,<br/>Students who don't know any basic Japanese. Greetings, basic conversation, simple vocabularies will be introduced.</p> <p><b>Level 2:</b><br/>Intermediate class,<br/>Students can say greetings and know some basic vocabularies. They need to know more vocabularies that suit the situation and understand how to make sentences.</p> <p><b>Level 3:</b><br/>Advance class,<br/>Students can make simple sentences and can understand the main points of a conversation and additional vocabularies. Talking and using the language to practice as they learn grammar and reading exercises.</p>  |
| <b>English</b>  | <p>English has become the world's most widely use language and the need to learn English for kids has increased exponentially with its growth, and starting to learn english since childhood is the best time. MIS is offering an after-school class that develops their language skills and verbal ability. Our English conversation class are divided into 3 levels: Beginners class, intermediate Class and Advance class.</p> <p><b>Level 1:</b><br/>Beginners class, this are students who doesn't know any basic english. Basic conversation, phonics and simple vocabularies will be introduced.</p> <p><b>Level 2:</b><br/>Intermediate class, students can make simple sentences and can understand the main points of a conversation but need much more vocabularies. Talking and using the language to practice as they learn grammar and reading exercises.</p> <p><b>Level 3:</b><br/>Advance class, students can speak and understand very well but sometimes have problems with unfamiliar situations and vocabulary. There will be discussions individually and group presentations and a lot more to increase the vocabulary strength of the students.</p> |
| <b>Arts</b>     | <p>Art is a great form of communication and of expression. Students can make use of their imagination through art and improve their creativity.</p> <p><b>2-3 years old:</b><br/>Students will be able to begin to identify some elements of art. They will learn to explore creativity while at the same time enhancing fine motor skills and hand-eye coordination. Students will also develop self-esteem and self-confidence.</p> <p><b>4-5 years old:</b><br/>Students will have the opportunity to explore and experiment with a variety of media and tools to express their feelings and ideas for creating artwork. Students will increase their awareness of aesthetics in art.</p> <p><b>6 years old:</b><br/>Students will learn how to communicate their feelings through art. They will learn about the work of various artists and be able to design their own work in the chosen artist's style.</p>   |
