

MIS Summer Program 2022 - Shukugawa Kinder

Date	Name of Activity	Description
Part 1: July 25	 <p>KALEIDOSCOPE SUMMER STEAM</p>	See the world in a whole new perspective through a colorful lens!
July 26	 <p>LIVINGWELL 7/26</p>	Enjoy the summer with festive colored home-made playdough!
July 27		Take to the skies with your very own kite! It's perfect to go outside in the summer and enjoy the weather when playing with a kite!

July 28

Inspiration is everywhere, and you can use many different things to capture the moment. Make a picture frame from natural materials that will forever like the memories in the pictures.

July 29

Enjoy our Summer Festival!

Part 2:
Aug 1

Nothing beats the heat like cooling down some fresh fruit and a fan, but what if you combined them to make a fruit fan?

Aug 2

Another way to cool off in the hot summer is with Ice Cream. The students will get to make their very own ice cream craft. The good news is that they won't melt in the hot sun either!

Aug 3

Playing outside in the summer is fun and even more fun when you have bubbles! Each student gets to make their very own bubble wand to play with at the park!

Aug 4

Time to go to the local park and use our bubble wands and other tools to make GIANT bubbles to jump into and through.

Aug 5

Join us on our field trip to Atoa Aquarium located in Kobe!

Aug 8

Feel the breeze in your hair as well as see it by making your very own windsock! these colorful creations will brighten up any window they are connected to!

Aug 9

Make a pair of fancy binoculars to help you see far! Decorate them and make them your own with different styles, colors, and designs!

<p>Aug 10</p>	 A red and white striped popcorn bucket overflowing with popcorn, a black and white clapperboard, and a silver film reel.	<p>Finish off the second part of our summer program with a nice relaxing cool day inside watching a refreshing summer themed video.</p>
<p>Part 3: Aug 17</p>	 Two colorful pinwheels, one yellow and one pink, on sticks.	<p>Summer is filled with bright sunny days that pair perfectly with pinwheels! These colorful pieces of art will catch the wind and spin super fast!</p>
<p>Aug 18</p>	 A colorful pipe cleaner dragonfly made from pink, purple, and silver pipe cleaners, set against a bright green background. A small URL 'www.messylittlemonster.com' is visible at the bottom right of the image.	<p>At the park we see dragonflies, they are so pretty and colorful. The students will get a chance to make their very own bright and colorful dragonflies!</p>
<p>Aug 19</p>	 A person holding a water gun, aiming it at a blue flag on a string in a grassy area.	<p>Time to get a little wet and wild! The students will enjoy a day at the park playing with water gun having races and other themed water games. Don't forget to bring your towel!</p>

Aug 22

What would you do if you were stuck on an island? Make a raft! The students will be given the opportunity to make their very own raft out of sticks that actually floats on water! but they will have to collect the sticks first from the local park!

Aug 23

Another fun filled day of getting wet! The students will make their very own 'water bombs' that they can throw and make a splash with their friends!

Aug 24

Using the sticks and materials that were gathered to make a raft

Aug 25

As we finish out the summer, get one last chance to relax inside and refresh with a video.

Aug 26

Stick Raft Building STEM Project

Today is the day the raft for! Will your raft be the fastest? Take your raft and have a race against your friends. Will your boat win or will your friends? It's all fun today as we close out our summer program.
